

The FSA, its officers, directors, members, divisions and authorized agents make no promises, representations, guarantees, or warranties of any kind (express or implied) as to the accuracy, relevancy, appropriateness, current status, or completeness of the data and information contained herein. It is provided for informational purposes only and "AS IS." The FSA hereby disclaims any and all liability for damages, losses or injuries of any kind to persons or property, including but not limited to, direct, indirect, incidental, consequential, and punitive damages whether foreseeable or not, attorneys' fees and costs, arising out of, resulting from, or related to the use of the publication(s), documents, data, and information contained therein and made available by the FSA in any format.

Foreword 3

Chapter I - Product Description of Rubber Expansion

A. Definition 4

B. Functions 4

C. Advantages 4

D. Construction Details 5

Chapter II - Types of Rubber Expansion Joints and Connectors

A. "Arch" Type 6

B. Reducer Type: "Taper" 7

C. Custom Type 7

D. Sleeve Type 7

E. Special Flange Type 7

F. Designs for Reduction of Turbulence And Abrasion 8

G. Arch Type Rectangular 8

H. "U" Type 8

I. Belt "Dogbone" Type 9

J. Spherical Type 9

K. Fan Connectors 9

L. Hinged Type Assembly 10

M. Gimbal Type Assembly 10

N. Universal Type Assembly 10

O. 1. In-Line Pressure Balanced Type Assembly 10

P. 2. Elbow Pressure Balanced Type Assembly 10

Chapter III - Molded Spherical Joints

A. Definition 15

B. Functions 15

C. Advantages 15

D. Construction 15

E. Types: Single, Double, Union 16-18

Chapter IV - All Fluoroplastic Couplings, Expansion Joints and Bellows

Foreword 19

A. Definition 19

B. Performance Characteristics 19

C. Construction Detail 19

D. Dimensions 19

E. Type of Connectors 19

F. Anchoring 20

G. Installation and Maintenance 20

Chapter V - Flexible Rubber Pipe Connectors

Foreword 21

A. Definition 21

B. Performance Characteristic 21

C. Construction Details 21

D. Types of Pipe Connectors 21

E. Anchoring and Control Units 21

F. Installation and Maintenance 21 & 22

Chapter VI - Expansion Joint Accessories

A. Retaining Rings 23

B. Limit/Control Units 23

C. Covers/Shields 23

Chapter VII - Definition of Performance Characteristics

A. Expansion Joint Motions 24

B. Sound Limiting Characteristics 24

C. Pressure Characteristics 24

D. Resistance to Fluids 25

E. Force Pounds and Spring Rates 25

F. Hydrostatic Testing 25

G. Seismic Testing 25

H. Cycle Life 25

Chapter VIII - Installation and Maintenance

A. Anchoring and Guiding the Piping System 26

B. Control Units 26

C. Other Installations 27

D. Installation Instructions for Non-Metallic Expansion Joints 28

E. Inspection Procedures for Expansion Joints in Service 29

F. Installation Detail Request 30 & 31

Chapter IX - FSA Pipe Joint Standards

A. FSA-PSJ-701-06, Hydro and Vacuum Testing 32

B. FSA-PSJ-702-15, Installation, Maintenance, Storage 34

C. FSA-PSJ-703-11, Guidelines for Elastomers 36

Tables

I. Maximum Temperature Ratings 4

II. List of Elastomers Used in Expansion Joints and Rubber Pipes 5

III. Comparison of Acoustical Impedances 24

IV. Pressure Characteristics of Rubber Expansion Joints 24

V. Typical Narrow Arch Expansion Joint Movement/Spring Rate Capabilities 11

VI. Typical Wide Arch Movement/Spring Rate Capabilities 12

VII. Spherical Expansion Joint Capabilities 16-18

VIII. Coupling, 2 Convolutions 20

IX. Expansion Joint, 3 Convolutions 20

X. Bellows, 5 Convolutions 20

XI. Rubber Pipe Connectors 22

Figures

1. Cross Section View of Standard Expansion Joint 3

2. 2A to 2Y, Types of Expansion Joints 6-10

2. 2. 2Z Spray Shields 23

3. 3A to 3F, Types of Movements 24

4. Thrust Formula 26

5. 5A to 5F, Piping Layout with Use of Expansion Joints 26-28

6. Assembly of Control Rods 27

7. 7A to 7B, Types of Rubber Pipe Connectors 21

8. 8A to 8C, Types of Fluoroplastic Connectors 19

9. Fluoroplastic Expansion Joint Flange 20

Appendixes

A. Dimension Inspection Procedure 22

B. Common Flange Dimensions/Drilling Chart 13

C. Control Unit Dimensions and Ratings 14

D. Mating Flange Thickness 14

E. Definitions 39-44

F. Noise and Vibration Transmitted Through the Hydraulic Media Reduced with the Installation of Expansion Joints 45

G. Mechanical Vibration in a Steel Piping System Reduced with the Installation of Pipe Connectors or Expansion Joints 46

H. Pressure Terminology 47

I. List of Specifications 47

J. Bibliography of Rubber Expansion Joint Articles 47

K. Would a Rubber or Metal Expansion Joint Better Suit my Application 48

L. Expansion Joint Specifications Sheet 49
